

Birds in the Bible – Raven

The raven is a large bird with black feathers and is a strong flier. It can subsist on a wide range of food items, including dead animals.
After the Ark landed on top of a mountain, Noah opened a window and sent out a raven to see if the water had gone down. (Genesis 8:4–7.)

During the reign of King Ahab, a prophet named Elijah told the king that there would be no dew or rain for several years. God then sent Elijah to hide in the wilderness for a while to save him from the king's wrath. He drank from a brook nearby and ravens brought him bread and meat twice a day. (1 Kings 17: 1–7.)

Jesus explained to his disciples, "Don't worry about food and clothes. Look at the ravens, they don't work, but God feeds them. You are worth so much more than birds!" (Luke 12:22–24.)
