Instruções

Recorte

- • Em primeiro lugar, a peça é separada do resto das peças cortando grosseiramente à sua volta com uma tesoura. Não corte ao longo das linhas nesta etapa.
- • Uma vez que a peça é separada, você pode trabalhar nela sem danificar outras peças. É melhor fazer a pontuação antes de prosseguir para o corte.

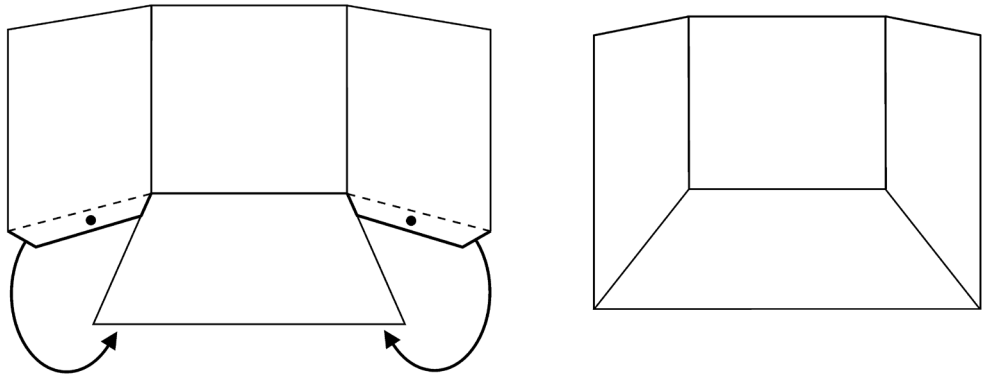
Marcando

Marque as linhas de dobra para fazer uma dobra reta e nítida. É especialmente importante que as peças menores sejam marcadas antes de dobrar.
• Para marcar, coloque uma régua de metal ao longo da linha de dobra e pressione com uma ponta cega ao longo da linha de dobra para comprimir o papel.

Atenção

- **• Tenha cuidado ao usar uma tesoura ou uma faca de corte de papel.**
- **• Cola, tesoura e outras ferramentas podem ser perigosas, portanto, certifique-se de mantê-las fora do alcance de crianças**

Montando o fundo



- Cut the background piece. After scoring along the dotted lines, fold and glue the 2 tabs under the floor.

Montando as figuras

- Primeiro recorte a figura, marque ao longo das linhas pontilhadas, depois dobre conforme mostrado na ilustração acima e cole as 2 partes.
- • **IMPORTANTE**: não coloque cola no verso das 2 abas.
- • Espere alguns minutos para a cola secar e depois corte ao longo de cada figura na área cinza claro. Você não precisa cortar ao longo da linha preta, você pode deixar alguns milímetros de cinza ao redor da figura.
- • Cole as abas da figura no retângulo pequeno para ajudar a reforçar a figura, quando seca, apare um pouco ao redor da base da figura.
